New Mark Inn Planned

Mark Inn, Inc., will begin construction soon on a new \$1-million-plus, 100-unit facility in Hapeville at Interstate 85 and Sylvan Road to be known as the Airport Mark Inn. This

will be the fourth unit of the local motel chain, said President James A. Shugart Jr. Occupancy is expected before the end of the year, he added.

He provides
all the comforts of home
for 150,000 guests a year.

Jim Shugart, owner of the Mark Inn Motel chain

Living is easier with natural gas A successful innkeeper like Jim Shugart has to be a good host and a good businessman. He must provide comforts and conveniences that bring guests back. Yet he also must consider operating costs, maintenance needs and equipment longevity. That's why he chose year-round gas air conditioning for his Mark Inn Motels. Tests of different fuels convinced him that natural gas offers a practical, economical approach to luxury.
